

## Bounce House Operation Guidelines

<p>1. Do not permit participants on the game until it is completely set-up. Complete set-up includes game being inflated to maximum capacity, game staked or weighed down and any foreign objects removed from the game surface.</p>
<p>2. Immediately remove participants if conditions are unfavorable. Unfavorable conditions include wind conditions/gusts at or more than 15 mph, rain, lightning or any other situation that would be a cause of injury to riders or damage to game.</p>
<p>3. Please remove participants immediately if game loses air pressure, blower is turned off or disconnected.</p>
<p>4. Please ensure participants remove shoes, glasses and sharp or breakable objects.</p>
<p>5. Do not permit children under the age of 4 to use game without parent, guardian or attendant.</p>
<p>6. Pregnant women, participants under the influence of drugs or alcohol, injured persons or individuals unable to physically enter the game under their own power may not use the game.</p>
<p>7. Please do not permit more than 7 small participants (under 60 lbs.), 5 medium participants (61-100lbs.) or 3 large participants (100+ lbs.) at any one time in the game.</p>
<p>8. Do not permit participants to climb over the top of the game.</p>
<p>9. Always be in control of the game at all times.</p>
<p>10. An adult supervisor must be in attendance of the game at all times. Do not leave game unattended at any time.</p>
<p>11. Unplug blower and do not permit minors to use the game if an adult is not supervising the slide.</p>
<p>12. Lack of inflation is a primary cause of concern. If game loses inflation,</p>

check that the blower is turned on, that the blower is plugged in correctly to an approved electrical source, that the blower has not come unattached to inflation tube, that the air release valve is closed or there is not a tear in the game.

13. I was given a tutorial by All Star Jumper Rentals, LLC. regarding the operation of this game, I have read and agree with the operation guidelines both implied and expressed and I am the sole responsible party for the operation and safety of this game.
